Education

- Dewan VS Institute of Engineering & Technology, Meerut UP, India (B-Tech CSE) **2018-2022**
- SD Inter College Sadar Meerut UP, India (12th, PCM) **2017-2018**
- SD Inter College Sadar Meerut UP, India (10th, Computer Science) **2015-2016**

Experience

- **React Developer :- (RSK Business Solution Pvt Ltd) - July 2023 - February 2025**
Worked on building scalable and responsive web applications using React.js and Next.js, Tailwind CSS Bootstrap CSS and Custom CSS too, and integrated REST APIs. Focused on performance and clean UI and mobile-friendly layouts too.
- **Frontend Developer Internship :- (RSK Business Solution Pvt Ltd) - April 2023 - June 2025**
Built dynamic 'forms library', reusable components, and handled state using Redux and Context API. Delivered mobile-friendly layouts with Tailwind and custom css too.
- **Technical Program Manager :- (Geekster.in) - December 2022 - March 2023**
As a Technical Program Manager at Geekster, I was responsible for creating and uploading technical courses focused on software development and interview preparation. I also managed student conduct during online assessments by identifying instances of cheating through accuracy checks, conducting meetings with involved students, and taking appropriate disciplinary actions based on the outcomes.
- **Teaching Assistant (DSA) :- (Geekster.in) - September 2022 - November 2022**
In this role, I have actively supported students in developing their problem-solving and logical thinking. I assist them when they encounter difficulties in understanding or building logic for given questions.

Projects

- **E-commerce Web App :- April 2025**
Tool & Tech:- Reactjs + Vite, Material UI, Tailwind@3 CSS, Formik & Yup, Context Api, Github, etc.
Overview:- Develop a fully functional e-commerce web application that allows users to browse, search, and purchase products online. The platform will feature a responsive user interface, product listings with detailed information, a shopping cart checkout process is also there.
